I would be delighted to engage with these debates, BUT, as in any profession, you need to give a management summary of objectives and action. I cannot dig into the minutiae. .

Good afternoon,

Kent County Council (KCC) is the planning authority for waste management and mineral development, which includes quarrying for sand, brickearth and ragstone.

We're asking businesses and residents to share their comments on the 'soundness' and 'legal compliance' of the Pre-Submission Draft of the Kent Minerals and Waste Local Plan 2024-39 following a full review of the strategy.

All comments received on the Pre-Submission Draft of the Local Plan will be forwarded to the Secretary of State for consideration as part of the Independent Examination.

This consultation closes on 29 February 2024. Please visit www.kent.gov.uk/mineralsandwaste to find out more and participate in this consultation.

Kind regards,

KCC's Engagement and Consultation Team
