Is your LA's Safety Valve plan on track?	Yes/No	Commentary
To achieve the Safety Valve agreement's projected deficit in the current year?	No	The May report highlighted we were not expecting to meet the original safety valve target of an in-year overspend on the DSG of £29.9m (before additional contributions from the safety valve or LA contributions). Initially the overspend was expected to be around £42m. However, the latest forecast is indicating this overspend may increase further to around £46m, resulting in us forecasting to be c£3m short of our planned cumulative deficit position as of March 2025, whilst this is not where we would like to be this does only equate to approximately c1% of the overall cumulative deficit. At the time of writing, we are waiting on the final outcomes of key phase transfer school/Post 16 data, along with other placement changes agreed for the Autumn term. The outcome of appeals is also unknown. Whilst the overall number of EHCPs is relatively in line with forecasts, it is placement costs that are a key concern. Mainstream schools are continuing to identify significant numbers of children whose costs of support are greater than £6k of additional support. This along with higher average cost for independent school placements and having to provide 1% higher increases to our state-funded settings (schools & post 16) than originally expected in the plan has added further pressure. Our original plan also expected our new SEMH special school would be opened by September 2024, this has been delayed due to a late change in trust leadership. In addition, the plan also assumed 2 of the 3 new special schools applied for would begin a phased opening (on the basis of accelerated programme) however it is now unlikely these schools will be opened until September 2027 (at the earliest), this accounts for £1.9m of the in-year deficit.

To achieve a £0 DSG deficit by the end of the Safety Valve agreement?	No	In this report we have updated the profile to reflect the impact of the reduction in the number of new special places we expect to be available as a result of the decisions and delays by the DfE / ESFA in respect of the application for the 3 new special schools, built into our original safety valve plan, which is something outside the jurisdiction of this authority. The profile still assumes that other risks linked with high cost of placements due to inflation and market conditions, along with demands in mainstream schools can be mitigated through other actions. This results in a residual accumulated deficit of £23m by March 2028 (after safety valve contributions).
---	----	---

Is your LA's	Yes/No	Commentary
Safety Valve capital project on track?	No	Due to the 3 new schools, one not agreed and the other 2 are subject to lengthy delays.

Programme Headlines

This quarter, the biggest drivers of positive change have been (up to 3):

- Increase in % no decisions for EHCNA during the last year
- Localities work showing that school leaders are keen to work together to better support CYP (Children and Young People) in their local areas
- More CYP at phase transfer entering mainstream settings

This quarter, the biggest barrier(s) to successful implementation of the Safety Valve plan have been (up to 3):

- Number and cost of CYP placed in independent sector rising
- EY numbers of EHCPs rising rapidly
- Culture of parents within Kent who see Special schools as the only option for their children

This quarter, the best examples of stakeholder engagement around the Safety Valve plan have been (up to 3):

- Localities work with Head teachers has had positive impact
- Special School consultations have had large numbers attending and extra events scheduled

Alongside your Safety Valve financial and narrative monitoring reports, please share with us the latest strategic data dashboard utilised by your governance oversight board for Safety Valve.

<u>NB</u> This should not be something created for the DfE Safety Valve monitoring process; if you do not have a strategic data dashboard, just let us know.

Condition 1: Implement a countywide approto to 'Inclusion Education,' to furt build capacity in mainstream schoo support children a young people with Special Education Needs and Disabil (SEND), thus increated the proportion of children successfor supported in mainstream educated and reducing dependence on specialist provisio	ther ols to and hal lities easing ully ation	Upda (Ma Upda (Aug Upda (Nover RA	ate 1 ay) ate 2 lust) ate 3 mber)	The percentage of CYP In year R-6 in specialist settings sits at 35.5% a reduction of 2.9% since July 23 and those in year 7-11 54.4% a reduction of 1.1% however we have much more to do within the older age groups as discussed under condition 5 where CYP in year 12- 14 sits at 37.8% an increase of 2.4%. As discussed previously much of the project work to build capacity within the mainstream settings has been completed with the final pieces detailed below. Implementation of this work is ongoing, and we would expect to see continued impact and a reduction in percentages placed within specialist settings year R-13 during the next few years of the Safety Valve programme. Overall progress shows July 2024 42% of school age CYP are placed within a mainstream setting increasing 1.2% since July 2023 The Specialist Teaching and Learning Service (STLS) / Lift Review intends to undertake a formal public consultation following the update presented to CYPE Cabinet Committee on 9 July. The consultation with focus on understanding in more detail what gaps in provision it may fill within the new ways of working related to SEND transformation in Kent. This intention was also discussed at School Funding Forum during July. Drafting of consultation documents and questionnaire has commenced and areas of focus shared with STLS representatives on 17 July with the intention that the consultation lasts for a period of eight weeks.
Condition 2: Introduce a robust Special Education Need (SEN) offer f early years, follow review, which expl	al or ving a lores	Upda (Ma Upda (Aug Upda	ay) ate 2 just)	Much more work is needed to reduce the numbers of EHCPs within Early Years/KS1 as our numbers have increased by 529 from 2,584 July 2023 to 3,113 July 24 in part by the backlog being cleared but also from an increase in Nursery 2 EHCPs issued since January 2024
alternatives to spe school admission before Key Stage 2 (KS2), SEN redesig implementation of County Approache Inclusive Educatio (CAtlE) to support consistent mainst offer, including leadership development programmes, peer	2 gn and f es to on rream	(Nover	mber)	Early Years Review outcomes of the public consultation were discussed at Cabinet Committee in July and the recommendation was to implement the revised model of universal, targeted and specialist support alongside a revised process to access SENIF, this was endorsed by the Committee. A subsequent discussion was held at Schools Funding Forum and planning is now underway to implement this decision, including development of an implementation plan and business case to address capacity issues within KCC early years teams. The review phase of the project is complete, and it will move to implementation stage from August 2024. It is anticipated that this work and the additional support

review and core trainin offer Condition 3:		odate 1	from an Early Years advisor will target the changes needed to reduce the reliance on specialist provision for all but the children with most complex of needs. We have continued to promote Dingley's promise through various comms channels; Send Newsletter, Staff bulletin, EYFS newsletter, TEP EYFS conference and LinkedIn and a Vlog talking about Dingley and the training available is now available. By the end of June, we have had 88 settings start the Dingles training and 137 delegates with SENCO and practitioners being the highest subscriber. Challenging behaviours training Has had the highest uptake.
Condition 3: Review the system of Educational Health and Care Plan (EHCP) assessments and annual reviews to ensure robustness, transparency, and consistency, through use of consistent criteria and practice framework RAG		May) G odate 2 ugust) G odate 3 vember)	 The best and the processed down from 1,884 in March 2023 to 1084 July 2024. Changes discussed previously in the panels and the now more robust process to agree to assess has resulted in a drop in Yes to assess decisions during the last year, but they have increased since March by 8.9% to 45.9% July 2024. The number of decline to issue has also reduced from 5.7% over the same period so whilst progress is good overall during the year it needs to be maintained month on month by consistent and robust decision making. This has resulted in an increase of 121 more appeals during quarter 1 and 2 than we saw in 2023 which we almost always lose. The percentage of assessments completed within a -week timeframe has improved to currently sit at 50.5% The Annual Review backlog team continue to make significant progress with their work, 7,438 annual reviews were overdue in July 2024 which is a significant reduction of 4,923 during the last year and this in addition to the large number of EHCPs ceased by this team with no parental complaints since the team were formed 18 months, which against a background of high numbers of complaints in other areas is a significant achievement. Work continues to improve the quality of EHCP writing within the casework teams and training tips and principles for writing clear and accurate notes on synergy and pupil file have been shared and will be included in future training from the QPD team.

		indicates that alternative placements have been identified for 66% of these pupils although more, placements continue to be agreed via tribunal so this will reduce. Safety valve casework officer is working on casework for pupils at our two most frequently used independent mainstream placements and has undertaken liaison with tribunals team around appropriate wording for section I when plans are updated following annual reviews, with a view to ensuring current arrangements around parents fully or part funding placements are clearly and consistently recorded on the EHCP, this includes a signed letter of agreement from parents, with the aim of preventing future liability or increased liability for fees under section 63 of the Children and Families Act. Planned visits to take place to the two schools where most placements are agreed via tribunal, with an invitation to the headteacher of the local mainstream schools to join the visit (where the response at consultation for some CYP now attending these schools has been no).			
Condition 5: Develop a robust Post- 16 offer across the county with clear pathways to independence for children with SEN, through increased Post-16 opportunities for preparing for adulthood	Update 1 (May) A Update 2 (August) A Update 3 (November) RAG	The Pathways for All (PfA) Strategic Board met at the end of June, bringing together the Board with its new chair and the new LCPA (Local Collaborative Planning Area) chairs. Work is ongoing between RIG (Recommendation Implementation Groups) and LCPA activity and the relationships between both, starting with the recent joint meeting. Work is underway on a PfA strategy and on how it fits in with the developing Education Strategy, developing a calendar of events and communications, and updating the terms of reference. The project is on track but evidence of impact on CYP will take time to be demonstrated.			
		Preparation for Adulthoods initial cohort of 23 identified young people who were unplaced after phase transfer was shared with the post-16 team with the intention of working with Mid-Kent College to create a pilot group for courses at level 1 which were not previously available, and for level 2 at a slower pace over two years. Of these 23, 20 were sent by the post-16 team with some delays. The college have not yet given responses to all of these, however early communication indicates that they will be able to place some young people but due to delays and issues with recruiting a teacher they may not be able to offer as many places as initially intended, although are open to developing this offer for the future. They have requested a meeting with the ADE to share their business plan for a PMLD (Profound and Multiple Learning Disabilities) provision in September. Mid-Kent College have also discussed their offer this year for an

sufficient and consistent capacity across the county to support children with severe and complex needs in their local area where possible This includes recruitment of temporary posts to support sufficiency planning, reviewing use of Specialist Resource Provision (SRP) and reviewing the specialist continuum to ensure only the most severe and complex needs supported in special schools	o (À h Ur c Ur c) (No e. are	A odate 2 ugust) A odate 3 vember) RAG	sits at 1,196 and we have 104.61% of commissioned places filled in Special Schools and 100.28% filled in SRPs (pre and post 16). The work continues to progress on the Special School review, and we have held engagement meetings with wide range of stakeholders (parents x 4; mainstream schools x 4; and Chairs of Governors). We have had a legal challenge and responded to this call for a change to description of Valence School designation which has led to extension of the special school review deadline to 14th August. Implementation of the project plan will require co-ordination and project management to secure consistent roll out of recommendations across the County and link this with other key developments, e.g. SEMH schools' provision aligned with AP and PRU provision; establishing best value and looking for opportunities to share school leadership expertise across more than one school.			
Condition 8: Develop a school/ar led approach to commissioning of SI support services (Locality Based Resources), to bette respond to the need of children and your people with SEND	rea- (EN Up (A er Up Is (No	odate 1 May) G odate 2 Jugust) G odate 3 vember) RAG	The average cost to support in mainstream sits currently at £11,039 significantly lower than many Special School and Independent places. Within the locality work clusters are being prepared and a timetable of activity for the next academic year is being planned and published to schools to prepare the system for the change ahead. The Continuum of Need and Provision has been developed in collaboration with schools and will inform the funding structure in the future with the first funding workshop complete, operational guidance is being prepared and communities of schools socialisation meetings being scoped and will be finalised in the Autumn term 2024 allowing decision making regarding statutory assessment requests and placement decisions and informed funding decisions to be made with more local transparency under the new funding model.			
Condition 9: Continue working closely with NHS Ke and Medway to ensu a common understanding of SEND needs, includ the drivers behind increases in need, ensuring clarity of clinical assessment and the subsequent funding associated.	ent ure Ur (A ding Ur (No	odate 1 May) A odate 2 ugust) A odate 3 vember) • RAG	We have been consistently improving our joint funding work and have endorsed 46 more referrals, changed, or partly agreed 11 and have 51 open and awaiting funding decisions. Since the start of the JFO process in October 2023 numbers have increased from a maximum of 17 per quarter to 59 in Q3 23/24 and 45 in Q4 23/24. Many more cases have been assessed as eligible for Health funding from 0.7 per month pre JFO to 3.3 per month since JFO. In addition, the time taken to come to agreements has reduced from an average of 226 days to 158 days.

		 the project for delivery in September 2024 with completion by March 2025. The planning phase entailed engaging with 20 schools in Kent and 20 schools in Medway to be part of the PINS project. Establishing stakeholders to become part working groups for comms, for schools for parents, an oversight group, and a regular operational meeting with the Medway project team to ensure a collaborative approach. We are now at the design phase where we are talking to service providers as to what they can deliver to schools that falls within the criteria of the project. From this, we will create a "menu of support" for schools to access based on a universal and enhanced system. The objectives of the project are: Upskilling mainstream schools. Improving outcomes for neurodiverse pupils in attendance, attainment, and wellbeing. Reducing referrals for additional individual support or assessments Building strong relationships with parents This is very much a tri-partite project with health, education and local councils and we are utilising services provided by both sectors under existing contracts and daily business and or via some form of funding process and we expect it to deliver better understanding of how best to support neurodiverse CYP in their school settings.
