Subject: Public consultation on Proposed Main Modifications to the Kent Minerals and Waste Local Plan

Good morning,

Kent County Council (KCC) is the planning authority for waste management and mineral development, which includes quarrying for sand, brickearth and ragstone.

Following the Regulation 19 consultation on the Local Plan in January 2024, and

public hearings in September 2024, the Inspector has identified a number of Main Modifications that they consider are required in order to ensure that the Local Plan is 'sound' and 'legally compliant'.

We're asking businesses and residents to share their comments on the 'soundness' and 'legal compliance' on the proposed Main Modifications to the Kent Minerals and Waste Local Plan 2024-39, along with the associated Sustainability Appraisal.

This consultation closes on 28 November 2024. Please visit www.kent.gov.uk/mineralsandwaste to find out more and participate in this consultation.

Kind regards,

KCC's Engagement and Consultation Team
